TrueMotion Adjustable Bases

TM600 | TM1100

Better Sleep Backed by Smart Comfort

When you sleep better, everything feels easier - and that's where TrueMotion comes in. Our adjustable bases are designed to support the way you rest, relax, and recover, helping you find your ideal sleep position with ease. From easing pressure and supporting better alignment to helping reduce snoring, TrueMotion is designed to help you feel more comfortable and well rested.

TrueMotion doesn't just support the way you sleep, it complements your lifestyle. Reading a book, watching TV or simply taking a moment to relax, it adapts to how you unwind. With smart features like Back and Foot Lift, Zero Gravity, Memory presets, Massage functions and app or remote control, it's comfort that's easy to use and thoughtfully designed for everyday living.

Choose the TM600 for everyday lifestyle comfort or elevate your experience with the TM1100 and enjoy added features like massage, under-bed lighting, USB-C ports and enhanced positioning.

TrueMotion 600

ADJUSTABLE BASE | LIFESTYLE RANGE

Effortless Adjustable Comfort for Modern Living

Introducing the TM600 by TrueMotion, a smart and stylish adjustable bed designed for the way you live and sleep today. Whether it's a lazy Sunday morning with the kids, winding down with a book, watching TV in comfort or simply setting up for a better night's rest, the TM600 supports your lifestyle and sleep with ease and style.

With customisable settings like Zero Gravity, Anti-Snore, Back and Foot Lift, and Easy Lay-Flat, the TM600 offers instant comfort at the push of a button. Program your favourite position with the memory function and control everything via the wireless remote or the TrueMotion mobile app.

With four height options (100mm to 350mm) and a sleek, lifestyle-focused design, the TM600 delivers modern comfort, simple functionality, and everyday convenience, all in one smart base.

Detailed Features & Benefits

TM600 LIFESTYLE | TM1100 PREMIUM

Wireless Remote & Phone App

Both bases allow easy, intuitive control using a wireless remote or the TrueMotion mobile app (iOS & Android). Change positions, access presets or activate functions right from your bedside or smartphone.

Back & Foot Lift

Gently raise your back or feet to find your perfect angle - ideal for sleeping, reading or relaxing. Elevating the head may also reduce snoring or symptoms of acid reflux, while foot elevation can improve circulation and relieve pressure.

Zero Gravity Position

Inspired by NASA, Zero-G positions your body to evenly distribute weight and reduce spinal pressure. Many users experience less tension, enhanced relaxation and better quality sleep.

Anti-Snore Position

With one touch, elevate the upper body into an Anti-Snore Position. Research shows that head elevation can ease airway restriction and reduce snoring for many sleepers.

Easy Lay Flat Position

Return the bed to a Flat Position with one click - perfect for morning routines or quick resets. Carers and users alike benefit from the simplicity of this one-touch feature.

Memory Presets

Save your favourite sleeping or relaxing positions and recall them instantly. Ideal for people who like consistency in their setup or who share a bed.

Massage Mode (TM1100 Only)

Relax with Back and Foot Massage functions that include adjustable intensity and two vibration modes (pulse and continuous). A perfect wind-down at the end of the day.

Reading/TV Preset

The TM600 includes a pre-set position for watching TV or reading. The TM1100 allows for manual adjustment into similar positions, so you can still get comfortable with a few taps.

Underbed Lighting (TM1100 Only)

Soft ambient LED lighting helps guide you at night without disturbing your partner - perfect for late night trips out of bed or soft mood lighting.

Detailed Features & Benefits

TM600 LIFESTYLE | TM1100 PREMIUM

USB Charging Ports (TM1100 Only)

Stay connected with USB-A and USB-C ports located on both sides of the bed (available on all sizes), allowing convenient overnight device charging.

Manual Height Adjustment

Both bases allow customisation of the bed height. This flexibility helps accommodate different user needs, from mobility support to caregiver access.

- **TM600**
100mm, 150mm, 200mm or 350mm
- **TM1100**
275mm, 350mm or 425mm

Upholstery

Both models are finished in a modern grey fabric that suits most bedroom aesthetics.

Mattress Compatibility

Each base features a breathable platform and secure keeper bars to prevent the mattress slipping and is compatible with all TrueMotion mattresses.

Dual Control

Designed for split kings, each person receives their own remote to control their side of the bed independently. This allows for personalisation, so one person can sit while the other reclines.

Universal Control

Used for queen, double, and single beds - this remote adjusts the entire bed as one unit. With just one controller, all adjustments are made together.

Caster Wheel Compatibility

Both bases can be upgraded with lockable caster wheels for ease of movement and secure placement - perfect for care environments or easy repositioning.

Weight Capacity & Safety

Engineered with heavy-duty materials to support up to 320kg. Our accessories option allows you to upgrade your adjustable base with lockable castor wheels for greater independence and support.

Warranty & NDIS Support

Rest assured, every TrueMotion adjustable base includes a 10 year warranty and TrueMotion, a division of TrueBlue Mattress Pty Ltd, is a registered NDIS provider.

Find Your Perfect Fit

TRUEMOTION | ADJUSTABLE BASES

Better Sleep Starts Here

At TrueMotion, we believe comfort should move with you. From night to morning and every moment in between, our adjustable bases are designed to bring rest, relief and relaxation into your everyday.

Whether you're new to adjustable living or looking to upgrade your sleep, there's a TrueMotion model to suit your needs.

The TM600 delivers everyday comfort with features like; Zero Gravity, Anti-Snore and memory positioning.

The TM1100 adds premium extras including vibrational massage, USB charging ports and underbed lighting.

Both models include a wireless remote and the TrueMotion mobile app, giving you full control at your fingertips.

Available in a range of sizes and adjustable heights, crafted with care and backed by a 10 year warranty. TrueMotion is an NDIS registered provider.
